

NEW ATTRACTIVE DESIGN GSM INTERCOM

SOLO I-DEA is an audio GSM Door phone device. It calls on predefined mobile and/or landline (PSTN) phones when visitors visit your home, office, holiday house or other premises so you can talk to them and grant them access.

The **SOLO I-DEA** unit also allows you to remotely open doors, gates and other access control devices by pressing a key combination on your mobile phone, by SMS remote control or with Caller ID recognition (free of charge).

The housing of **SOLO I-DEA** is of modular design and can be delivered with different coloured frames (black, white, metal silver, etc.). **SOLO I-DEA** supports up to 4 call buttons.

It is **ALL in ONE** and it is **very easy to install**.

All you need is to connect the power supply, insert the SIM card and at least one phone number which the device dials.
